

Three Good Reasons

to think about restarting your pension contributions

There are many reasons to restart your pension contributions. Here's three of them

1.

Cutting your pension contribution generally increases your tax bill. Contributing €100 into your pension only really costs you €60 if you pay income tax at the higher rate of 40%.*

2.

Smaller steps are better than standing still. It is better to contribute a smaller amount (that you can afford) than to stop contributing altogether.

3.

If you need to stand still, plan your next step. Deciding when you are going to start again will help you to plan for a healthier retirement fund.
